

ENVIRONMENTAL POLICY

Field Mining Services Group (FMS) supplies fabrication and maintenance services to a growing number of clients in the fabrication, construction and mining sectors. The company is committed to the prevention of pollution and environmental management is of utmost importance for the operation of our business.

FMS is environmentally responsible for all aspects of operations carried out on site and in the workshop including significant environmental aspects of:

- Controlled and uncontrolled emissions to the atmosphere and discharges to water
- Solid and other wastes
- Contamination of land
- Noise, odour, dust, vibration and visible impact
- Incidents and accidents (safety and the environment)
- Changes and compliance to legislation

We will comply with all applicable environmental legislation, regulations and standards to which the Company subscribes.

Employees shall actively participate and comply with regulations at FMS facilities and at our client's sites including recycling activities for all waste materials and the protection of the environment.

FMS is committed to the continual improvement of our environmental performance.

We achieve this through:

- Compliance with legislation, regulations, standards and codes;
- Continual improvement in our environmental performance;
- Utilising the risk processes to identify environmental aspects and setting objectives and targets to manage these aspects;
- Providing environmental awareness training to all employees and contractors, and consulting with our people;
- Ensuring that resources are available to achieve environmental objectives;
- Management of waste streams using the hierarchy of waste management – Reduce-Reuse-Recycle;
- Open communication with stakeholders and the community on environmentally relevant issues;
- Promote sustainability through efficient use of natural resources and energy;
- Review of the company's performance in achieving the aims of this policy through environmental audits and reviews.

This policy will be communicated to all FMS employees, contractors and visitors and will be subject to regular review to ensure it remains valid and relevant.
