

# ELECTRICAL SERVICES DIVISION

**A specialist division providing electrical  
maintenance services to sites across Australia**

Our skilled electrical team provides qualified tradespeople and supervisors, working together to achieve minimal machinery downtime and maintenance costs for our clients across a variety of industries. Our team has extensive industry experience, providing efficient and high-quality solutions to your site and offering short-term and long-term shift relief needs, along with project and shutdown requirements.

With access to a qualified team of electrical tradespeople, we can fulfill your short-term or long-term shift relief needs, projects and shutdown requirements.
