

## MOBILE PLANT MAINTENANCE

Your Trusted Partner in Tailored Mobile Plant Solutions.

FMS Mobile Plant Maintenance is a leading provider of mobile plant solutions across Australasia. We offer a full range of services to keep your operations efficient, safe, and reliable, supported by in-house expertise across multiple disciplines.

Specialising in the mining, construction, and industrial sectors, we deliver high-quality, cost-effective solutions tailored to your unique needs. Backed by a skilled team, we're your trusted partner for customised maintenance solutions that drive performance and reliability.

### OUR OFFERINGS INCLUDE:

- **Full Trade Services:** Our skilled workforce offers comprehensive expertise across various trades for rostered, ad-hoc, and shutdown services. Whether you need ongoing support, flexible solutions, or help during critical projects, we ensure work is completed efficiently and to the highest standards.
- **End-to-End Solutions:** We specialise in seamless support for shutdowns, projects, and asset relocations. Our self-sufficient approach minimises disruption to day-to-day operations while ensuring timely project delivery.
- **Workshop Capabilities:** FMS's fully equipped workshop delivers engineered solutions for complex repairs, overhauls, and modifications beyond our field capabilities, providing comprehensive support.
- **In-House Engineered Solutions:** We deliver tailored engineering solutions that optimise equipment performance, enhance reliability, and solve operational challenges. Our solutions improve efficiency, reduce risks, and streamline operations.

- **Machining and Line Boring Services:** We offer precision machining and line boring services, including radial and X-Y milling, to restore and maintain equipment integrity, addressing issues from worn or damaged components.
- **Safety Lift Equipment & Solutions:** Through our partnership with Safety Lift Solutions, we provide advanced hydraulic lifting systems that ensure safety and efficiency during complex maintenance tasks like slew bearing and undercarriage work.

### COMMITMENT TO SAFETY:

At FMS, safety is embedded in everything we do. We maintain the highest safety standards through a robust management system covering all operations. From risk assessments to training, awareness, and in-field engagement, we ensure our team is equipped to manage mobile plant maintenance safely, minimising downtime and maintaining operational efficiency for your business.

## OUR CORE SKILLED WORKFORCE INCLUDES:

- Project Managers & Coordinators
- Accredited Supervisors
- Planners/Schedulers
- Heavy Duty Diesel & Light Vehicle Mechanics
- Auto Electricians
- High Voltage Electricians
- Boilermakers & Coded Welders
- Machinists & Line Boring Specialists
- Trade Assistants & Store Persons
- Service Persons

## AVAILABLE EQUIPMENT AND RESOURCES:

- Mine-Spec Vehicles
- Line Boring & Boilermaking Units
- Tooling & Pre-Start Containers
- Specialised Hydraulic Torque Equipment
- Parts Consolidation Containers
- X-Y and Radial Milling Machines
- Cranes & Heavy Transport Vehicles
- Height Access & Load Shifting Equipment
- Site Facilities

## What Sets Us Apart?

- **Tailored Maintenance Solutions:** We specialise in customised solutions that optimise performance, reduce downtime, and enhance reliability, ensuring smooth operations.
- **Innovative Hydraulic Lifting Systems:** Partnering with Safety Lift Solutions, we provide advanced hydraulic lifting systems that enhance safety and efficiency during complex tasks like undercarriage and slew bearing work.
- **Comprehensive In-House Capabilities:** From precision machining and line boring to engineered solutions and repairs, our in-house expertise ensures all your maintenance needs are met under one roof.
- **Local Expertise, Nationwide Reach:** As an Australian-owned business, we offer regional insights and unmatched support across Australasia, delivering tailored services without compromising on quality.

## Why Choose FMS Mobile Plant Maintenance?

FMS stands out by exceeding industry standards with a focus on tailored solutions that maximise the performance, safety, and reliability of your mobile plant equipment. Our in-house capabilities, expert team, and commitment to innovation ensure that your operations stay productive, efficient, and cost-effective. Partner with FMS Mobile Plant Maintenance for tailored solutions that keep your assets running at their best.
